

Advanced Educational TA group 2027 Karen Pratt TSTA (education) PCC

This training group is the next step after a solid foundational study of TA. It builds on classical TA models and adds in an educational TA perspective - both in terms of the philosophy of learning and how that translates into the practical application of TA within an educational context (small groups, teams, individuals being coached, schools, teachers, community groups etc). It supports the growing development of your identity as a TA educator. It is a multi-level training group with rich learning across the levels.

The webs run between the following times: SA - 9am to 4pm [UTC + 2.00]

Topics:

Topics are drawn from the key articles of educational TA practitioners. Members are encouraged to take a slot of creating learning based on themes each month. Topics are arranged in a 3 year revolving cycle - see the separate spreadsheet. *[2027 will be a year 2 in the cycle]* There are mostly two designated 20 min supervision opportunities each web. Topics are fluid and can change according to the interest and needs of the group each year.
